Art Unit 1713

The following is a quotation of 35 U.S.C. § 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-12 are rejected under 35 U.S.C. § 103(a) as being unpatentable over Ciocca et al., U.S. Patent 5,766,772 or Hackhbl, U.S. Patent 3,048,266, European Patent Application No. 1055610 or 931805 each taken alone or further in view of Unithox Technical Release No. 4022.0.

The rejection as set forth under 35 U.S.C. § 103 in Paper No. 6 is deemed proper and is herein repeated.

The European Patent Application 931805 is newly cited in response to the amendment and is seen to further show compounds which can fall within the scope of those as instantly claimed. These compounds are further described as being suitable antifogging agents in polyolefinic films.

Applicants' primary point of contention is that the newly amended claims limit the compound so as to have a minimum of 24 carbon atoms in the alkyl or fatty alcohol portion of the

Art Unit 1713

compound. The Examiner acknowledges that these patents do not specifically identify the claimed compound but rather show various compounds wherein the substituents and the variables can be selected so as to fall within the scope of the instantly claimed invention. Specifically the Hackhbl patent has multiple R units which can be alkyl groups and as such, this patent is not limited to the ether group having 22 carbon atoms as argued by applicants. This rationale applies to the European document as well wherein it is not seen that the fatty alcohol portion is limited to 12 carbon atoms.

The Examiner has cited the secondary document as showing applicants' instantly claimed antifog agent. Applicants have failed to distinguish the compounds as shown within this document and those as instantly claimed. As such, the Examiner maintains it would be prima facie obvious to one of ordinary skill in the art to select the antifogging agents as cited in the secondary document and use them as antifogging agents in polyolefinic compositions as taught in the primary references. Applicants have failed to specifically address this rejection.

Applicants have identified a comparative showing within the specification which is alleged to show the unexpected results achieved by the instantly claimed invention. This has been fully considered and has been deemed to be not sufficient so as to

Art Unit 1713

place the claims in condition for allowance. The showing is not seen to be representative of the closest prior art nor does it sufficiently support the breadth of the instantly claimed invention. As such, the claims remain unpatentable.

Applicants' amendment necessitated the new grounds of rejection. Accordingly, **THIS ACTION IS MADE FINAL**. See M.P.E.P. § 706.07(a). Applicants are reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a). The practice of automatically extending the shortened statutory period an additional month upon the filing of a timely first response to a final rejection has been discontinued by the Office. See 1021 TMOG 35.

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE
